## Form Strong Organization to Promote This Part of County

The Southwest Parks and Parkways Association has been consolidated with the Southwest Organization, an organization formed with the one idea of assisting all development in the entire southwest district; to get behind the various improvements now under way and help carry them to a successful conclusion; to make a careful survey of industrial location and to work to the end that financially sound industries may be established in the district; and to assist in solving the zoning problem so that the entire district may be built up solidly and economically.

The organization work has been practically completed, and within the next thirty days it is hoped that public meetings will be held at various places in the district where the aims and purposes of the organization can be fully explained to the people.

It is remarkable to see what results have been obtained through concerted co-operated effort under the leadership of the East Side Organization. There is no reason why the southwest district should not also take advantage of the same means of development.

The officers include Jas. L. Beebe of W. H. O'Melveny's office, A. G. Walker of the Huntington Land Company, F. W. Flint Jr. of the O. T. Johnson Corporation, Chas. H. Cheney of the Palms Verdes Estates, and Frank Vanderlip interests, with John C. Bodger as president. The advisory committee is composed mainly of the directors of the Southwest Parks and Parkways Association, and includes E. N. McMasters and Carl Hyde, and in the near future additional members will be appointed. I. F. Stephenson, president of the Moneta Commercial Bank, is treasurer, and C. J. S. Williamson, formerly with the Los Angeles County Regional Planning Commission, is secretary. Mr. Williamson is also secretary of the Association of City Planners of Los Angeles County, and is thoroughly conversant with the plans of the County Regional Planning Commission, Los Angeles Planning Commission and Los Angeles Traffic Commission, and well acquainted with the officials of Los Angeles County.

Headquarters have been established in the Insurance Exchange building, Ninth and Olive Streets (Room 511), telephone Vardyke 9478, and the services of the organization are freely offered in helping solve any of the problems, large or small, in the entire district.

### 2 Scout Troops Get Under Way For Big Season

#### Robert Lewellen and William Bell Take Charge of Activities

Torrance Troop No. 3, Boy Scouts of America, conducted its first meeting under its new scoutmaster, Robert Lewellen, recently in the new Scout building erected by Torrance people for scout activities. Mr. Lewellen, who is connected with The Torrance Herald, is an experienced scoutmaster. He began as a tenderfoot scout and worked his way up to Eagle rank, the highest rank in scouting. Definite plans for future activities were discussed at the meeting and there is every indication of a successful troop. The troop meets on Friday evenings, and boys interested in joining Troop No. 3 are invited to call at that time.

F. L. Parks, the former scoutmaster, who is retiring because of business demands on his time, is planning to be present at all meetings when it is possible for him to do so.

Troop No. 4 entertained San Pedro Troop No. 11 at its meeting in the new Scout building. A program of scout activities and games was conducted and ice cream was served by William Bell, chairman of the troop committee representing the Kiwanis Club, which is sponsoring the troop. Troop No. 4 is making a drive for new members, and interested boys are invited to come to the troop meetings or see the scoutmaster, Edgar A. Reeves, at the elementary school. The meetings of Troop No. 4 are held on Thursday evenings at 7 p. m. in the Scout building.

Scout tests are held each Friday afternoon at the Scout building by the district commissioner or his assistant. Instructions will be given to those not prepared to pass.

**Trip is Planned**

A scout trip to Switzer's Camp under the leadership of James H. Scott will be conducted Saturday and Sunday, Oct. 9 and 10. This trip is for Torrance scouts, and scouts who have been with Mr. Scott on previous trips need no further guarantee of a good time. Transportation will leave the Scout building in Torrance at 5 p. m. on Saturday afternoon, Oct. 9, and scouts going on the trip are to bring bedding, toilet articles, a bag, and lunch for Saturday evening, and 50 cents to pay for the two meals on Sunday, which meals Mr. Scott will provide. Further information will be furnished at the troop meetings, where registration for the formal trip is to be made. The formal opening of the new Scout building will be postponed until all the plumbing has been completed and the troops have had an opportunity of decorating the interior. It is hoped to conduct a rally, in which both local troops will participate, during the month of October.

### Roscoe Simpson Is Freshman at U. S. C.

Roscoe Simpson, Torrance student, registered in the freshman class of the University of Southern California, Los Angeles, during freshman week, starting classes with the opening of instruction in all departments of U. S. C. on Wednesday, Sept. 15. Freshman week, inaugurated last year at Southern California and now being adopted by many of the leading universities and colleges throughout the country, is a "welcome week" of enrollment and acclimating campus activities especially set aside for incoming "fresh." Innovations at the Trojan institution this year include 35 new faculty members; lengthening the curriculum of the College of Dentistry to five years, including one year of pre-dental preparations; plans for a new clinical building on the campus; expansion of the School of Architecture, including a new modeling room, a new drafting room, and the opening of an exhibition room; and the installation of a "model" junior-senior high school on the U. S. C. campus, in joint connection with the college-preparatory department and the School of Education.

Joseph Madore is down from Kramer Hills for a few days. Mr. Madore is interested with a number of men from Los Angeles and San Bernardino, in a mine at Kramer Hills. The company has \$2000 worth of machinery at the mine, ready to place immediately.
